SUMMARY

Performance-driven B.Tech CSE student specializing in AI/ML, Scalable Systems, and System Design fundamentals. Adept at applying core Data Structures & Algorithms (DSA) to design robust full-stack web applications and low-latency backend architectures. Proven record of migrating systems, engineering transactional pipelines, and implementing data-driven security controls with quantified production-level metrics.

TECHNICAL SKILLS

- **Core & Software:** Data Structures & Algorithms (DSA), System Design (Monoliths, Microservices), REST APIs, Unit Testing (JUnit, Jest)
- **Languages & FX:** Java, Python, SQL, JavaScript, React.js, Node.js, Express.js, Spring Boot, Spring Security, JWT
- **Data & DevOps:** Apache Kafka, Redis, Supabase, Docker, PostgreSQL, MySQL, MongoDB, Flyway, Git, AWS (S3 Basics), GitHub Actions

EXPERIENCE

- **Unified Mentor Pvt. Ltd.** | *Data Science Intern* June 2025 – August 2025
 - Developed end-to-end ML data pipelines in Python (Scikit-Learn, Pandas) across historical datasets exceeding **12,000+** entries.
 - Designed statistical validation and platform fraud detection algorithms, identifying anomaly spikes with **94.2%** precision.
 - Built an automated data-cleaning script that cut processing bottlenecks by **18%** and generated predictive optimization models.
- **CDAC Noida** | *Summer Internship (Big Data & ML Track)* June 2024 – July 2024
 - Utilized Apache Kafka and PySpark to profile and manage enterprise big data streams containing **50,000+** unstructured records.
 - Engineered an asynchronous classification pipeline that identified multi-language data anomalies with a **22%** latency reduction.
 - Implemented structural data validation layers, dropping parsing exception errors by **15%** during bulk background ingestion routines.

PROJECTS

- **Stock Tag – Inventory Management System** [\[GitHub Repo\]](#) [\[Live Demo\]](#)
Tools: Spring Boot, MySQL, Flyway, Spring Security, JWT, JUnit, Railway, Vercel, GitHub Actions
 - Migrated legacy Desktop Swing UI into a web system, improving concurrent transactional capacity to handle **200+** active sessions.
 - Engineered atomic stock pipelines with strict isolation, lowering race-condition anomalies and cross-item data corruption to **0%**.
 - Optimized Relational Database Schema using target B-Tree indexes, reducing heavy item-search query response times by **32%**.
 - Wrote JUnit tests for core stock validation logic and automated Flyway schema rollbacks to ensure high service availability.
 - Established an automated CI/CD pipeline via GitHub Actions to deploy to Vercel/Railway, cutting production deployment time by **40%**.
- **Enclave Portal – Themed Contact Platform** [\[GitHub Repo\]](#) [\[Live Demo\]](#)
Tools: React, Vite, Express.js, MongoDB, Mongoose, Zod, Jest, Express-Rate-Limit, Vercel
 - Designed a multi-theme context engine leveraging CSS custom properties, capping client-side theme render shifts below **45ms**.
 - Integrated global middleware rate-limiting layers to restrict traffic spikes to **100 requests/15 mins** per IP, mitigating DDoS risks.
 - Implemented strict type-safe schema validation via Zod, eliminating bad API requests and unhandled payload exceptions by **28%**.
- **Spam Mail Detection Platform** [\[GitHub Profile\]](#)
Tools: Python, Scikit-learn, Pandas, NumPy, NLP TF-IDF Tokenization, Jupyter Notebook
 - Built an end-to-end ML text-classification engine using Naive Bayes and Support Vector Machines over a corpus of **5,500+** items.
 - Achieved a verified **95.6%** test accuracy by engineering a robust text pipeline with stop-word filtering and TF-IDF tokenization.

EDUCATION

- **K.R. Mangalam University** | *Bachelor of Technology in CSE (AI & ML)* 2023 – Present
- Govt. Sarvodaya Possangipur, New Delhi | Class 12 Senior Secondary (CBSE Board)
- Red Rose Model Sec. School, New Delhi | Class 10 Secondary (CBSE Board)

CERTIFICATIONS & ACHIEVEMENTS

- **Big Data Engineer – IBM Professional Certification:** Structured large-scale data engineering tracks
- **Data Analysis with Python – Professional Certification:** Built descriptive & inferential analysis pipelines
- **Foundations of AI & Data Analytics – Samatrix Academy:** Specialized in regression and vector spaces
